How to change the look of your PDQ paper…try cutting it up!

Using both sides of this sheet of Vivid PDQ paper 5 cut it into squares (use the squares on side A as your guide for size) and lay the squares behind you photo onto a contrasting sheet of cardstock that is mounted onto a darker sheet to create a dark frame. Additional products used are PDQ Tropical and Candy chipboard shapes, flowers and a piece from Tropical paper 5 b (leaf paper) and a white rub-on.
