

Bisous PDQ - Green Scrapbooking That Saves Money & Time
6 NEW LINES Rainbow, Away, Dream, Promise, Delight & Fun!

TORONTO—January 1st, 2010 —PDQ is pre finished 12” x 12” double sided heavy weight papers that create the illusion of layered patterned papers, hand drawn doodles and stamping in a creative design that costs less than a dollar per layout. One sheet of paper completes two detailed layouts with no waste.

Bisous has released six new unique PDQ scrapbooking paper and sticker lines designed by artist Suzanne Carillo. These PDQ releases include 30 double sided, pre designed patterned papers, six “Album in an Afternoon” kits (which will complete a twenty page album for under \$13) and six 12” x 12” coordinating sheets of chipboard shapes (each with over 64 pieces). Each line has its own unique style: whimsical “Rainbow”; hip “Fun!”; eclectic “Away”; sophisticated “Dream”; classic “Promise” and elegant “Delight”. These PDQ products continue to offer scrapbookers and crafters the ability to create “Green”, professional, economical and detailed layouts or projects in minutes without sacrificing quality or creativity.

“I hate to waste anything, trees, money or time.” said artist Suzanne Carillo, owner of Bisous. “I’ve designed these products so that people can still enjoy scrapbooking knowing that they are not overspending or reducing the earth’s diminishing resources, and they can finish a project that they will be proud of in minutes.”

“I adore the great mixture of colors and patterns and the complete and utter versatility of the designs.” said Lesley Oman, scrapbooking enthusiast. “If I want to make a page quickly, I can just add a few photos and extra embellishments and it's all done. Or, if I want to put more time and effort into the project, I will cut up the pages and use them in conjunction with other products. Either way, the result looks like a huge amount of work has been put into the finished creation, giving a great professional finish and you can always be sure to give your projects that “WOW” factor.”

The newest PDQ releases will be available late February 2010.

Founded in 2001, Bisous (b-zoo) is the manufacturer and developer of quality innovative scrapbooking and crafting products. The company offers a wide range of products designed to offer economical and time saving solutions for scrapbooking and paper crafting.
